We believe that CARE is about people, not disease -

We approach health holistically, taking into account all aspects of a person's well-being, including any barriers they face

Since 1971, the Kansas City CARE Clinic has been an engaged community partner, integral to health care in Kansas City.

It is, and always has been our mission to promote health and wellness by providing quality Care, Access, Research and Education to all people in our community.

CARE for the whole person:

General Medicine

- Acute and Chronic Care
- Physicals
- Health Screenings
- STD Testing
- Well Women Care
- Medication Adherence
- Cardiology
- Optometry
- Hypertension
- Dermatology
- Pulmonary Care
- Nutrition Counseling
- Diabetes Care
- Pain Management

Occupational/Physical

- Therapy
- Laboratory Services
- Dispensary
- Smoking Cessation

Clinical Trials & Research

Dental

- Preventive
- Restorative
- Emergency

Community Services

- Behavioral Health
- Individual and Group Therapy
- Substance Abuse Counseling
- Case Management
- Community Health Navigators

HIV Care & Support

- Primary Care
- Peer Treatment Adherence Support
- Individual Interventions
- Education Groups
- Support Groups
- HIV Linkage to Care
- Wellness and HIV Prevention
- HIV Counseling, Testing and Referral

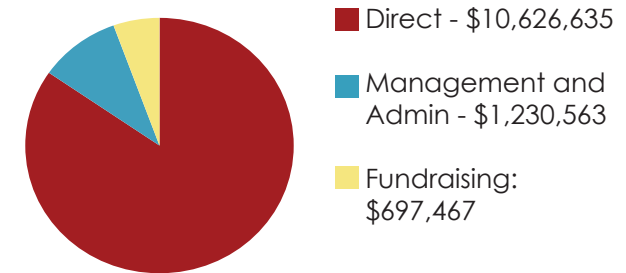

For people, not-for-profit

The Kansas City CARE Clinic spends nearly 90 cents of every dollar on direct patient care.

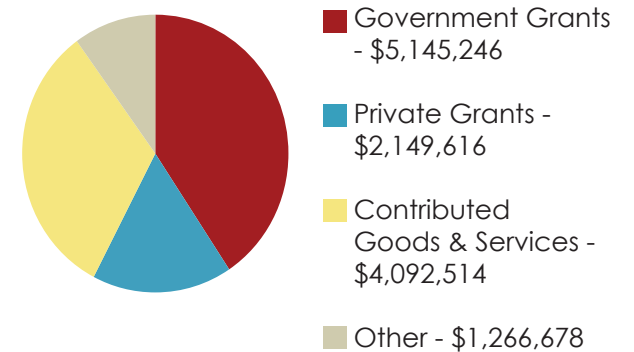

This is only possible due to the generosity of our community—thank you!
